

CSWC Operational Period Summary

0600 February 28 to 1800 February 28 2014

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

Current Weather :

Northern California

General rain accumulations in Northern California in the past 24 hours have ranged between 1.42 inches in Stockton to 3.9 inches in the coastal area of Monterey.

Watershed areas in northern California generally receive 1-2 inches of precipitation, however, the Shasta Dam area received 1.0 inches of precipitation in the last 24 hour period. The remainder of the forecasted area has received .04 inches – up to 1.0 inch

Current average snow water equivalents, percent of normal for this date

North: 16 percent (5 percent increase in 48 hours)

Central: 33 percent (4 percent increase in 48 hours)

South: 26 percent (6 percent increase in 48 hours)

Southern California

General rain accumulations in the past 24 hours have ranged from 1 to 2 inches.

More showery precipitation with a chance of thunderstorms will persist into late afternoon Saturday. Widespread rainfall rates between a half and one inch an hour are expected with local rates up to 1.5 inches per hour are possible through early afternoon and burn areas will be extremely susceptible to mud and debris flows. Storm total rain amounts of 2-4 inches at lower elevations, 4-7 inches in the foothills, and 8-10 inches in the mountains are expected tonight through Saturday night. Snow levels will start out above 8000 feet this morning, but lower to around 5500 feet late this afternoon and remain near that level through Saturday.

SITUATION SUMMARY (Cont.)

Future Weather :

Northern California

This storm will take the brunt of its heavy rain/snows into southern California but we'll still likely get some decent snows out of this especially south of Hwy 50 and into Mono County. The Mammoth area may pick up some significant snows. Forecast confidence is medium -- the main uncertainty is how far north the heavy snows will fall (the snow forecast for the Tahoe area is a little less predictable with this storm).

Snow Levels:

Northern Mountains: 5500-7000 feet Saturday-Sunday, rising to 8000-9500 feet Monday-Tuesday

Central and Southern Sierra: 5500-6500 feet rising to 7500-8500 feet Saturday; then to 8000-9500 feet Sunday and Monday, further rising to 9500-11000 feet Tuesday

Southern Mountains: 6000-7000 feet Saturday, rising to 8500-9500 feet Sunday, further rising to 10000-12500 feet Tuesday

Southern California

Rainfall Saturday with this storm will generate 1-3 inch totals for most coast and valley locations with heaviest amounts near the foothills. Rainfall totals of 3-6 inches are possible in the foothills and coastal mountain slopes with local 8 inch totals possible in the wettest locations.

This storm will be capable of producing bursts of rainfall rate intensities between 1 to 2 inches per hour. These numbers are more than enough to cause serious debris flows in and below the recent burn areas

SITUATION SUMMARY (Cont.)

Active Weather Watches and Warnings

Active Watches and Warnings	
County	Weather Product and Affected Area
Los Angeles	Winter Storm Warning
	LA County Mtns, thru Sat night
	High Wind Warning
	Santa Monica Mtns, until 7pm
	Flash Flood Watch
	LA County Mtns, thru Sat evening
	San Gabriel Valley, thru Sat evening
San Luis Obispo	High Wind Warning
	SLO and Santa Barbara Co Mtns,
Santa Barbara	High Wind Warning
	SLO and Santa Barbara Co Mtns, until 7pm
Ventura	Winter Storm Warning
	Ventura Co Mtns until 3am Sunday 6000-8000 ft
	LA Co Mtns until 3am Sunday 6000-8000 ft
	Flash Flood Watch
	All of Ventura Co thru Sat evening
Fresno	Winter Storm Warning
	Southern Sierra - above 6000 ft - until 4am Sat
Madera	Winter Storm Warning
	Southern Sierra - above 6000 ft - until 4am Sat

SITUATION SUMMARY (Cont.)

Road Closures:

Lifeline closures

- No current closures.

Non-Lifeline Routes

Mono County

At approximately 2100 hours on February 26, 2014 State Route 158 was closed from 3.5 miles north of June Lake Village /at Power Plant/ to the north junction of United States Route 395 due to snow. The route has not reopened.

Mono & Alpine Counties

At approximately 1603 hours on January 29, 2014 State Route 89 was closed from the junction of United States Route 395 to the junction of State Route 4 /Monitor Pass/ due to snow. The route has not reopened.

Mono County

At approximately 1700 hours on January 30, 2014 State Route 270 was closed from the junction of United States Route 395 to Bodie due to snow. The route has not reopened.

Ventura County

SR 1 Route closed due to a slide from the Los Angeles/Ventura County Line to 4.5 mi south of Oxnard. The estimated time of reopening is February 28, 1200 hours.

Road Closures: (Cont.)

Non-Lifeline Routes (Cont.)

Los Angeles County

SR 2 Route closed at Big Pines due to a rock slide. Estimated time of reopening is unknown.

SR 2 Route closed due to rock slides from 3.2 miles west of the junction of I 210 to 6 miles east of La Canada. Estimated time of reopening is 1400 hours.

SR2 Route closed due to low visibility from Pasadena to the junction of SR 39. Estimated time of reopening is unknown.

SR 39 Route closed due to safety concerns of the Department of Forestry 1 mile north of Azusa to 5.5 miles south of Islip Saddle. Estimated time of reopening is unknown.

Kern County

SR 33 is closed due to flooding from 6.5 miles south of the junction of SR 46 to the junction of SR 46. Estimated time of reopening is unknown.

San Bernardino County

SR 18 Route closed due to two new rock slides in the same area 5 miles north of the junction of SR 330 to Big Bear Dam. Estimated time of reopening is unknown.

WEATHER

California Precipitation Forecast - For March 1 – March 7, 2014

Region - Counties	Precipitation Amount (Mar 1– Mar 7, 2014)
North Coast <ul style="list-style-type: none">Del Norte, Humboldt, Mendocino, Lake, Sonoma, Napa	<ul style="list-style-type: none">Del Norte and Mendocino Counties: 1.30-4.50" (highest eastern Del Norte Co.)Elsewhere: 1.00-2.30" (highest northern Mendocino Co.)
Cascade – Sierra <ul style="list-style-type: none">Siskiyou, Modoc, Trinity, Shasta, Lassen, Plumas, Sierra, Nevada, Placer, El Dorado, Amador, Alpine, Calaveras, Tuolumne, Mariposa	<ul style="list-style-type: none">Shasta, Trinity, and Siskiyou Counties: 0.50-3.75" (highest in mountains of western Siskiyou Co.)Modoc and Lassen Counties: 0.25-0.90"Plumas southward through Mariposa Counties: 0.50-2.50" (highest N. Sierra Nevada Mountains)
Bay Area <ul style="list-style-type: none">Marin, San Francisco, San Mateo, Contra Costa, Alameda	<ul style="list-style-type: none">Marin and San Mateo Counties: 1.00-2.60"Elsewhere: 0.80-1.90"

WEATHER

California Precipitation Forecast - For March 1– March 7, 2014 (cont.)

Region - Counties	Precipitation Amount (Mar 1 – Mar 7, 2014)
Sacramento Valley <ul style="list-style-type: none">Tehama, Glenn, Butte, Colusa, Sutter, Yuba, Yolo, Sacramento, Solano	<ul style="list-style-type: none">Tehama County 0.75-2.50" (highest in higher terrain western and eastern portions; up to 3.50" far NE portion)Butte and Yuba Counties: 0.80-2.70" (highest in higher terrain)Elsewhere: 0.60-1.30" (highest in Coastal Range/foothills)
San Joaquin Valley <ul style="list-style-type: none">San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare, Kern	<ul style="list-style-type: none">Higher elevations in S. Sierra Nevada: 2.00-5.40" (highest far southern Sierra Nevada Mountains)Elsewhere: 0.80-2.00"

WEATHER

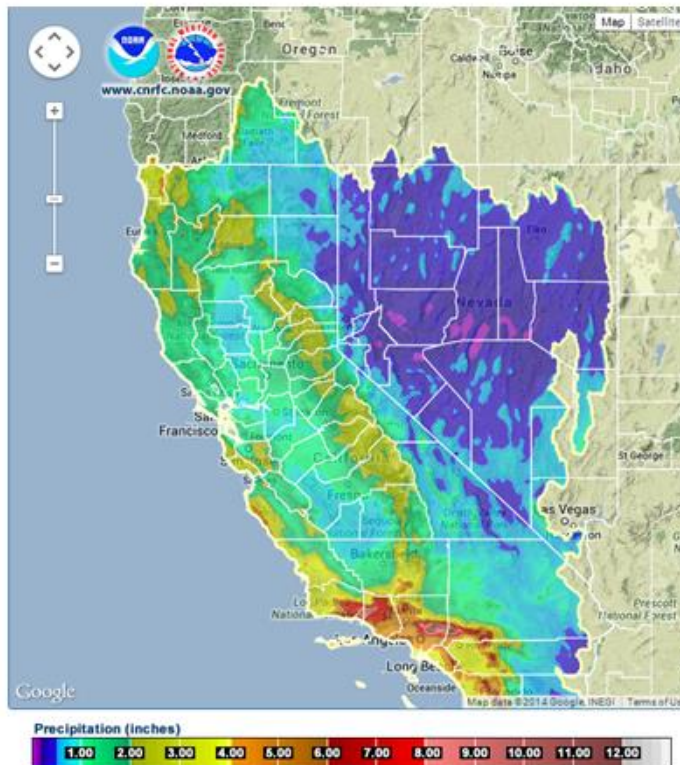

California Precipitation Forecast - For March 1– March 7, 2014 (cont.)

Region - Counties	Precipitation Amount (Mar 1 – Mar 7, 2014)
South Coast <ul style="list-style-type: none">• Santa Barbara, Ventura, Los Angeles, Orange, San Diego	<ul style="list-style-type: none">• Santa Barbara, Ventura, and Los Angeles Counties: 2.25-5.00" (5.00-10.50" higher mountains and south-facing slopes)• Orange and San Diego Counties: 3.30-7.00" (highest in higher elevations and south-facing slopes)
Southeast Interior <ul style="list-style-type: none">• Mono, Inyo, San Bernardino, Riverside, Imperial	<ul style="list-style-type: none">• SW San Bernardino County (Mountains): 2.50 to 11.00"• Elsewhere: 0.20"-2.50" (highest SW San Bernardino County and near Sierra Nevada crest)

Longer Term Outlook:

Mild Pacific weather systems will increase chances for precipitation again in northwest California Monday through mid-week. By mid-late in the week, additional precipitation could occur further south, including the Coast Range (north of San Francisco Bay) and the northern-central Sierra Nevada.

NOAA's Climate Prediction Center depicts increased chances for above normal precipitation in northwest California for the period March 5-9, and near equal chances for the remainder of the state. The 8-14 day outlook indicates near equal chances throughout the state for the period March 7-13.

Forecast five-day precipitation forecast, valid through Wednesday morning, March 5, 2014.

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily. The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed. The Southern REOC is activated at Level 1.

2014 – Winter Storms

- **State Operation Center**
Activated at Level 2 today. Re-activating Saturday, and Sunday 0700 hours – 1900 hours
- **Inland REOC**
The Inland REOC will activate at Level 2, M-F, 0800-1700hrs. The REOC is prepared to continue the activation through the weekend, increasing staffing as necessary, 24 hour operations, A Shift: 0700-1900hrs, B Shift: 1900-0700hrs.
- **Coastal REOC**
Activated today 0800-1700 hrs. Re-activating 0800 - 1700 hours, March 1, 2014. The REOC will deactivate at 1700 hours, March 1, 2014 and the Region will be at Duty Officer Status at that time.
- **Southern REOC**
Activate at Level 2 today. Re-activating Saturday, and Sunday 0600 – 1800
Staffing pattern has been established throughout the weekend.

SIGNIFICANT EVENTS / ACTIVITY

Cal EOC Incident – 2014 Drought

Situational Summary: (No change) Next report Monday March 3, 2014

- The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State for several months. Negative economic impacts will also result. The Governor has established a Drought Task Force to prioritize State actions needed to address these conditions. Governor Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for these drought conditions. The State Operations Center (SOC) is activated to implement objectives in support of the Governor's priorities.
- Many local jurisdictions have enacted water conservation measures. The Office of Emergency Services is in close contact with counties and local officials to monitor the water conditions, agriculture and economy.
- As a result of the drought DWR has informed the customers of the State Water Project (SWP) that deliveries in 2014 will be discontinued if current dry conditions persist. Deliveries to agricultural districts with long-standing water rights in the Sacramento Valley may be cut 50 percent (the maximum permitted by contract) depending upon future snow survey results. Storage in key reservoirs now is lower than at this time in 1977, one of the two previous driest water years on record. While additional winter storms may provide a limited boost to reservoir storage and water deliveries, it would need to rain and snow heavily every other day from now until May to get us back to average annual rain and snowfall. The allocation may change depending on future storm events.

Declarations/Resolutions/Proclamations

- **Monterey County Proclamation Due to the Forecasted Series of Storms:**

Monterey County has proclaimed the existence of a local emergency due to a series of storms and related weather events, commencing on or about February 26, 2014 continuing through Sunday, March 2, 2014 causing flooding, mud and debris flow in areas extremely vulnerable to these threats due to post Pfeiffer Fire wildfire in December 2013. Immediate action is necessary to mitigate the effects of the local emergency; and this emergency does not permit delay from competitive solicitation to let contracts for bids. No state assistance is being requested and no Governor's Proclamation is being requested. Cal OES Coastal Region is dispatching staff to Monterey County to identify needs and provide necessary resource support from the State.

- **Los Angeles County Expected Proclamation**

Cal OES is expecting to receive a Proclamation for a State of Emergency in Bouquet Canyon located near Santa Clarita that was passed yesterday, February 25, 2014 by the Los Angeles County Board of Supervisors. Local residents' well water levels have dropped due to silt buildup in Bouquet Creek. Recent fire and storm events have increased sediment deposits in Bouquet Canyon Creek reducing its flood carrying capacity. The reduced flood carrying capacity minimized the recharge to groundwater wells which are the sole source for potable water for approximately 150 properties in the area.

Declarations/Resolutions/Proclamations

- **Los Angeles County Proclamations**
 - A Proclamation of local emergency from the City of Glendora, Los Angeles County due to winter storms has been received with no request for State assistance.
 - A Proclamation of local emergency from the City of Monrovia, Los Angeles County due to winter storms has been received with no request for State assistance.

2014 – Winter Storms

Operational Area Status for Rain Event February 28 – March 2, 2014:

Inland Region: Inland Region personnel have made positive contact with Operational Areas (OAs) and there are no concerns or request for State assistance at this time.

Weather Briefing:

Inland REOC hosted a NWS weather briefing conference call with OAs and Tribes at 1500 hours February 27, 2014.

2014 – Winter Storms (Cont.)

Operational Area Status for Rain Event February 28 – March 2, 2014:

Coastal Region:

Cal OES Coastal Region will facilitate a conference call with the National Weather Service due to incoming weather on March 1, 2014 at 0800 hours

A Coastal Operational Area weather conference call was held on February 28, 2014 at 0830 hours:

Humboldt County is not expecting flooding issues from these storms

Napa County No activation, just monitoring customers without power and they had 1.3 – 1.5” of rain on the west side and about 1 inch elsewhere

Monterey County No activation, just monitoring, no requests for assistance. The proclamation that they previously put in helped to get the contractor out to the Pfeiffer Ridge area to complete the mitigation work necessary. They reported that through the storms last night and today everything held up. They have an evacuation route in place if it becomes necessary at any time, this would take them through Clear Ridge Road. Sycamore Road has a little mud debris, but a contractor has been hired to keep it clear throughout the storms. Power is out on Pfeiffer Ridge.

Santa Cruz County No activation, just monitoring, Jarvis Road is closed, but this is a small road not isolating anyone, 200 customers without power

Del Norte, Mendocino, Sonoma, Solano, Lake, Marin, Contra Costa, Alameda, San Francisco, San Mateo, and Santa Clara, are monitoring with no concerns/requests at this time.

2014 – Winter Storms (Cont.)

Operational Area Status for Rain Event February 28 – March 2, 2014:

Coastal Region: (Cont.)

Monterey County Burn Area State Agency Situation Status Conference Call was held on February 28, 2014 at 1400 hours:

State Agency Operations in Monterey County

Department of Transportation – None

Highway Patrol – Normal Ops

Water Resources – None

Fish and Wildlife – Monitoring, potential endangered species (Frogs) in one wetland

State Parks and US Forest Service Joint Operations – Normal

Cal Fire – N/A

Conservation Corps – No requests/No Mission Requests

CUEA – None additional Operations, were some power outages

Cal OES Law - None

Cal OES Fire – None

Cal OES Executive Duty Officer – None

Coastal Duty Officer – Monitoring Region

State Warning Center - None

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

2014 – Winter Storms (Cont.)

Operational Area Status for Rain Event February 28 – March 2, 2014: (Cont.)

Southern Region:

Multiple Southern Region Operational Areas are expecting increasing heavy rains continuing through Sunday evening, March 02, 2014 due to the potential impact in recently burned areas with forecasted mud and debris flows, and potential localized flooding. Various communities have issued voluntary and/or mandatory evacuations orders. As of today, 02/28, Los Angeles County reports impacts are in isolated pockets and have no reports of extensive damage or mudflows. There are reports from Azusa, Monrovia, and Glendora of trees down, some small mudflows, and minor flooding, but there is no widespread imminent damage/danger. City of Glendora reports power outages that have put their Emergency Operations Center (EOC) on backup generator. Glendora also reports there are no evacuees in the evacuation facility at Crowther Teen Center. The Southern REOC will continue to monitor the incident.

Southern California Edison Power Outages

Total Customers without service: 15,160

Counties:

Los Angeles - 37 outages, 1,561 customers without service

Orange - 11 outages, 1,587 customers without service

Riverside - 12 outages, 1,433 customers without service

San Bernardino - 15 outages, 2,113 customers without service

Ventura - 4 outages, 107 customers without service.

Santa Barbara - 7 outages, 1378 customers without service

Tulare - 9 outages, 4,231 customers without service.

2014 – Winter Storms (Cont.)

Operational Area Status for Rain Event February 28 – March 2, 2014: (Cont.)

- **Ventura County**

Ventura County EOC activated at 0600 hours on February 28, 2014 at Level 1.

- **Los Angeles County**

A voluntary evacuation notification was sent to 739 residences in the Colby Fire burn area near Glendora at 1200 hours on February 26, 2014 due to anticipated debris flows. This same area will be under a mandatory evacuation beginning at 1200 hours, February 27, 2014.

- City of Glendora to hold press conference at 10:00 am at the Glendora Library

Evacuations:

Azusa - 02/26 Voluntary evacuations for 11 residents. 02/27 Mandatory evacuations went into effect at noon.

Glendora - 02/26 Voluntary evacuations effective at 0800 hours. 02/27 Mandatory evacuations noon - affects about 739 residents. [No Overnight shelter population](#)

Monrovia - 02/26-27 Advisory Warning Only to 300 residents. [No Overnight shelter population](#)

2014 – Winter Storms (Cont.)

Operational Area Status for Rain Event February 28 – March 2, 2014: (Cont.)

Los Angeles County (Cont.)

Evacuation Center:

Residents in Glendora, Azusa and Camp Williams will be directed to an Evacuation Center at the Crowther Teen & Family Center, 241 W. Dawson in Glendora. The American Red Cross (ARC) is making plans on possibly converting the evacuation center to a shelter. The evacuation is open 24-hours.

Activations:

LA County EOC Activated	Level 2 at 0600 hours
Long Beach	Level 1 at 0600 hours
Los Angeles	Level 1 at 0600 hours
Monrovia	Level 3 at 0600 hours
Azusa	Level 2 at 0600 hours
Glendora	Level 3 at 0546 hours
Rancho Palos Verdes	Level 1 at 0600 hours

2014 – Winter Storms (Cont.)

Operational Area Status for Rain Event February 28 – March 2, 2014: (Cont.)

Los Angeles County (Cont.)

School Closures:

City of Glendora - Saint Lucy Priory High School and Goddard Middle School are closed today due to the rain storm.

Local Road Closures:

City Glendora - Hillcrest Road between North Yucca Ridge Road and E. Sierra Madre Avenue is closed due to a mudslide.

City of Azusa - East Sierra Madre Avenue between McNeil Drive and Barranca Avenue is closed.

City of Sierra Madre - Santa Anita Canyon Road (Chantry Road) is closed due to rock slides.

City of Castaic – Lake Hughes Road is closed

City of Malibu – Pacific Coast Highway is closed from Yorba Buena to Las Posas Road.

Lake Hughes – Lake Hughes Road closed north of Camp Mendenhall at 1606 hours. Possible flooding and debris flows.

CAL OES MISSIONS

Drought Related Missions

- **2014-Inland-2185** Tuolumne County does not have a water master or any alternative resources to assist in determining the health of their ground water system. The County is requesting state agency expertise to assist with this determination.
- Department of Water Resources (DWR) and California Department of Public Health (CDPH) will be sending representatives to the Drought Task Force Meeting on 2/28/14 at 1530.

2014 California Winter Storms Missions

SREOC Agency Representative Missions, Winter Storms event:

- 2014-SREOC-2384 for a California Highway Patrol Agency Representative to staff the CEOC at the Los Angeles CEOC on 02/28/2014 through Sunday, March 02, 2014.
- 2014-SREOC-2383 for a Caltrans Agency Representative to staff the Los Angeles CEOC on 02/28/2014 through Sunday, March 02, 2014.
- **Staffing schedule at the Los Angeles County EOC:**
 - Friday, February 28th – 0600 – 1800 hours
 - Saturday, March 1st – 0600 – 1800 hours
 - Sunday, March 2nd – 0600 – 1800 hours

CAL OES MISSIONS

New Cal OES Missions

Ongoing Cal OES Missions

- **2014-LAW-2395** On 2/28/2014 at 0148 hours AFRCC reports an ELT activation in Los Angeles County. CSWC briefed the county Warning Point and the Cal OES LDO.
- **2014-LAW-2390** San Benito County SO is requesting two (2) Historic remains Detection K-9 Teams from Santa Clara County Sheriff's Department. Search area will be in the vicinity of Hwy 56 east of Hwy 25. Cal OES LDO is coordinating resources. Cal OES K-9 Coordinator confirmed that Santa Clara County SO would support mission request for 02/28/14.
- **2014-LAW-2380** The San Bernardino County Sheriff's Department as the Regional Mutual Aid Coordinator is requesting the 9th Civil Support Team of the California National Guard for support during the running of the Auto Club Speedway's NASCAR Races to be held from Friday, March 21, 2014 through Sunday, March 23, 2014. The CNG has accepted the mission and will deploy the requested resources.
- **2014-LAW-2289** Los Angeles County requesting California National Guard (CNG) 9th Civil Support Team (CST) for the 86th Academy Awards on Sunday, 3/2/2014.

Ongoing Cal OES Missions (Cont.)

- **2014-LAW-2307** California Department of Fish and Wildlife (DFW) has requested California Air National Guard to assist in the movement of equipment and fuel between Farallon National Wildlife Refuge and the mainland. Approximately 3-4 sorties are expected with an HH-60G helicopter any one day between 2/24-28/2014 or before 3/15/2014. After receiving the official letter of request from USFWS on behalf of the California DFW, Cal OES LDO has changed the target date of the mission to 2/27/14, the county to Marin as Stinson Beach was Identified as the primary staging area and the resource to an HH-60.
- **2014-LAW-2258** Placer County Sheriff's Department requesting 2 radio kit's (kit of 14 radios), 1 kit of VHF and 1 kit of UHF, to assist and support a mountain rescue training. Placer SO will pick-up radios on Friday, 02/27/2014, for training on the weekend of the 28th and 29th of February.
- **2014-LAW-2275** 02/23/14 at 1742 hours the Butte County Sheriff's Office is requesting six area dogs with support personnel to assist in the search for an 81-year-old male with dementia who walked away from his residence between 1000-1200 hrs. Saturday. The requested resources will meet at the ICP at 0800 hrs. Monday. LDO Contacted Cal OES K-9 Coordinator who secured the requested resources. Update: 2310 hrs. Cal OES K-9 Coordinator advised he secured an additional 2 trailing K-9's for the search. LDO notified the Butte SO SAR leader. UPDATE: 02/27/14, 2118 hours, CARDA will be able to provide two (2) K-9 teams to support this mission.

CAL OES DEPLOYMENTS

Cal OES (No change)

Monterey County: Deployed Coastal OES Emergency Services Coordinator is demobilized. Monterey County EOC is not activated today. Monterey County has no requests for state assistance/requirements.

EMAC Colorado (No change)

2014-SOC-2101 California deployed a Recovery Specialist, Clyde Muraoka, to Colorado as requested via EMAC #510-RR-2388 to assist in flood recovery operations. The coordination process is complete. Personnel have arrived safely and reported for assignment. The deployment began on 2/09/2014 with a confirmed demobilization date of 3/12/2014.

UPCOMING EVENTS, TRAINING, EXERCISES

Diablo Canyon Power Plant, Rehearsal / Full Scale Exercise

Diablo Canyon Power Plant in San Luis Obispo will be hosting two full scale Hostile Action Based exercises this Spring. A dress rehearsal exercise will be held on April 16, 2014 and a FEMA evaluated exercise will held on May 21, 2014. This is part of the required biennial demonstration of our ability to protect the public from a radiological incident at the nuclear power plant.

2014 Golden Guardian

Planning is currently underway for the Governor's 2014 exercise series. The series will test the *California Cascadia Subduction Zone Earthquake and Tsunami Response Plan* developed by FEMA Region IX and Cal OES

- Logistics Tabletop Exercise - March 5, 2014
- Logistics Rehearsal of Concept Drill - April 2, 2014
- REOC Communications Functional Exercise - March 27, 2014

The Tsunami Warning Communications Test

Live code, activating EAS will be on the North Coast in Del Norte, Humboldt, Mendocino Counties on Wednesday 3/26/2014 (between 11:00 and Noon PDT).

- Del Norte County will be asking residents of the community to participate in a full evacuation exercise on March 26 between 1100 – 1300 hours PDT.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
